COMMISSION REGULATION (EC) No 1472/2003

of 20 August 2003

opening and providing for the management of a Community tariff quota for grape juice and must as from the 2003/2004 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES.

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1493/1999 of 17 May 1999 on the common organisation of the market in wine (1), as last amended by Regulation (EC) No 806/2003 (2), and in particular Article 62(1) thereof,

Whereas:

- Pursuant to the Agreement concluded as part of the (1) World Trade Organisation multilateral trade negotiations, the Community undertook to open an annual tariff quota for the importation of 14 000 tonnes of grape juice and must.
- Commission Regulation (EC) No 2012/96 opening and providing for the administration of a Community tariff quota for grape juice and must as from the 1996/97 marketing year (3), as amended by Regulation (EC) No 2499/97 (4), provided for the management of this quota on the basis of the delivery of import licences.
- The management of this quota should be improved in (3) the interest of administrative simplification and efficiency. Experience in the use of the first-come-firstserved management system has been positive with other tariff quotas in the wine sector. The tariff quota for grape juice and grape must should therefore be managed in conformity with Article 62(2)(a) of Regulation (EC) No 1493/1999, and on the basis of Articles 308a, 308b and 308c of Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (5), as last amended by Regulation (EC) 1335/2003 (6).
- The benefit from the tariff quota is subject to a specific end-use. Supervision of compliance with the provisions concerning the end-use should be carried out by the customs authorities in accordance with the provisions of Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code (7), as last amended by Regulation (EC) No 2700/2000 (8) and Regulation No 2454/93 as regards goods which are released for free circulation at a reduced rate of duty on account of their end-use.

Given the considerable reduction of the customs duties involved and the related financial risk in case of noncompliance with these rules, it is appropriate to make mandatory the requirement to lodge security covering this risk. According to the rules of Community customs legislation, the customs authorities require a single security to cover the financial risk related to any potential customs debt in respect of the goods concerned.

- It is therefore appropriate to repeal Regulation (EC) No (5) 2012/96 and to replace it with a new one.
- The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine.
